All children develop at different rates and in different ways. Please do not worry if your child is not doing all or any of the activities mentioned in the questionnaire. It is not a test. The activities are simply one way of understanding how your child is progressing.

Possible answers:

Yes = your child does this activity (or has done it and has now progressed, e.g., crawling, but is now walking)

Sometimes = your child is just beginning to do this activity (but does not do it regularly)

Not Yet = your child has not yet started doing this

Please leave blank any activities your child has not been able to try with you.

48 Month Questionnaire

45 months 0 days to 50 months 30 days (inclusive)

On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly (yes), sometimes, or not yet.

	Important Points to Remember: No	tes:			
	☑ Try each activity with your child before marking a response. ——				—
	✓ Make completing this questionnaire a game that is fun for you and your child.✓ Make sure your child is not tired or hungry.				
	Please bring this questionnaire with you to your child's health and development review.				_)
